PROFESSIONAL SUMMARY

Product designer with 5 years of experience across enterprise SaaS, AI, and data-heavy platforms. I take complex, high-stakes systems from discovery to launch — working closely with product, engineering, and executive stakeholders. Comfortable owning ambiguous problems, building design systems that cut delivery time, and shipping products used by millions.

EXPERIENCE

Senior Product Designer
Oct 2024 – Present

Itu Chaudhuri Design (embedded at UnifyApps)

- Drove product design across 60+ enterprise deployments for HDFC Bank, Sony Networks, Jubilant FoodWorks, Dubai Development Authority, DGE Abu Dhabi, and more.
- Designed consent and communication management products under India's DPDP Act — enabling 30M+ customers, 400M+ consent records, and 3M+ daily communications for HDFC Bank.
- Owned and scaled the UnifyApps design system across AI, Data Quality, Governance, and Workflow Automation — reused across 60+ deployments to cut delivery time.
- Ran 3 enterprise product initiatives in parallel, balancing stakeholder priorities, engineering constraints, and timelines.
- Set up design-to-engineering handoff and review workflows that reduced back-and-forth and implementation inconsistencies.
- Mentored 6 junior designers — running critiques, guiding growth, and holding WCAG 2.1 accessibility across products.

Senior UI/UX Designer
Oct 2023 – Sep 2024

Brane Enterprises

- Led UX for 20+ client projects across e-commerce, finance, healthcare, and education on Brane's low-code platform.
- Turned messy business and technical requirements into scalable workflows, working shoulder to shoulder with product and engineering.
- Shipped responsive products with clean developer handoff, keeping design consistent across parallel projects.

Senior UI/UX Designer
Nov 2021 – Oct 2023

Kocha Technologies

- Designed Nextdecentrum end-to-end — an NFT marketplace — covering onboarding, discovery, bidding, and wallet integration.
- Translated requirements into wireframes, flows, and high-fidelity interfaces with a distributed engineering team.
- Improved usability across core platform workflows through iterative design and steady stakeholder feedback.

SKILLS

Design & Research: Product Design, UX Design, Interaction Design, Information Architecture, User Flows, Design Systems, Component Libraries, Usability Testing, Journey Mapping, Accessibility (WCAG), Enterprise SaaS

Strategy & Systems: Product Strategy, Product Discovery, Systems Thinking, User Research, Stakeholder Management, Design Leadership, DesignOps, Data Visualization

AI & Tools: Claude, AI Product Design, Prompt Engineering, Agentic UX, Generative Prototyping, Figma, Figma AI, FigJam, Miro, Framer, Google AI Studio, Adobe Creative Suite

EDUCATION

Bachelor of Planning & Architecture
Aug 2017 – May 2021

NIT Bhopal, Madhya Pradesh, India
